Guru Prasanth

AI Developer | Full-Stack Developer | Student

Tiruppur, Tamil Nadu, India | **guruprasanth4059@gmail.com** | **linkedin.com/in/guru-prasanth-320838383** | **github.com/guruprasanth4059-alt**

PROFESSIONAL SUMMARY

Motivated developer and Bachelor of Commerce student bridging financial acumen with modern software engineering and artificial intelligence. Experienced in designing full-stack prototypes, machine learning applications, and data-driven fintech tools. Active hackathon participant passionate about rapid prototyping, ethical AI, and turning real-world problem statements into high-impact digital solutions.

TECHNICAL & ANALYTICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS
- **Backend & APIs:** Python, FastAPI, Node.js, RESTful API Design
- **AI & Machine Learning:** LLM Integration, Prompt Engineering, NLP Concepts, AI Prototyping
- **Databases & Tools:** Supabase, PostgreSQL, Git, GitHub, VS Code
- **Financial & Analytical:** Financial Analysis, Business Strategy, Cash Flow Modeling, Audit & Risk Assessment

FEATURED PROJECTS

Manas Suraksha — AI-Powered Mental Health Monitoring & Distress Prediction System

- An AI-assisted mental well-being platform designed to support survivors through continuous psychological care. Implements ethical distress signal detection with privacy safeguards, vernacular multilingual support, and an offline SMS/IVRS fallback architecture for accessible reach in low-bandwidth regions.
- **Stack:** Python, FastAPI, NLP, Ethical AI Architecture, SMS/IVRS Integration | *Prototype / Concept*

Cashflow — 30-Day Cash Flow Forecasting & Financial Advisory Workspace

- A predictive financial analytics platform designed for small businesses to track real-time liquidity, forecast rolling 30-day inflows and expenses, and simulate scenarios like payment delays. Provides automated anomaly alerts to help entrepreneurs prevent cash crunches.
- **Stack:** React, Node.js, Supabase, Financial Analytics, Tailwind CSS | *Prototype / Working Concept*

Eco Verzz AI — AI-Powered Environmental Monitoring & Ecological Detection

- An environmental monitoring tool combining computer vision models with real-time API services to detect deforestation, vegetation stress, and ecological changes. Built to deliver actionable sustainability data for conservation initiatives.
- **Stack:** Python, FastAPI, Express.js, Supabase, Computer Vision Concepts | *Prototype / Concept*

FundFit AI — Mutual Fund Evaluation & Quantitative Advisory Engine

- A quantitative investment evaluation prototype that maps mutual funds against personalized investor risk profiles using explainable metrics (alpha, beta, risk-adjusted returns). Translates complex fund metrics into transparent, actionable portfolio insights.
- **Stack:** Next.js, Python, Supabase, Quantitative Financial Metrics | *Prototype / Concept*

EDUCATION

Bachelor of Commerce (B.Com) — Accounting and Finance — **2025 – 2028 (Under confirmation)**
KPR College of Arts, Science and Research (Affiliated with Bharathiar University) — Coimbatore, Tamil Nadu, India

CERTIFICATIONS & JOB SIMULATIONS

Shields Up: Cybersecurity Job Simulation — AIG (via Forage) — *Verified Simulation*

- Security architecture, vulnerability analysis, and incident mitigation

Career Catalyst: Audit Job Simulation — KPMG U.S. (via Forage) — *Verified Simulation*

- Financial statement analysis, internal controls, and audit procedures
